

SWACHHATA AWARENESS MESSAGE

“Mahatma Gandhi never compromised on cleanliness.

He gave us freedom. We should give him a clean India.”

- Narendra Modi

Purity is inseparable from holiness. The cult of cleanliness has become a part of our contemporary concept of comfort. Remember, the forest is not a park, the field is not a garden, and the street is not a bathroom. Cleanliness is important in our life as well as for the nation. It is well known that Mahatma Gandhi personally took effort to achieve the change that he wanted to see. Role of Engineers, Technocrats, technicians and Public servants is very important to create awareness on technologies that can be adopted to ensure a clean environment. In the present scenario the role of social media is important to create awareness among the people and inculcate a feeling of nationality among them. Cleanliness is not only the duty of ‘Safai Karmchari’ or the local government but it’s the need of hour that all the people actively participate to make the nation clean to fulfil the dream of Mahatma Gandhi for the protection of environment and protection of our future.

Don Bosco School, Udaipur, believes – “Cleanliness and order are not matters of instinct; they are matters of education, and like most great things, one must cultivate a taste for them.” When the school environment is clean, the children feel happy and healthy. It facilitates learning and safety for the students as well as visitors. The school is devoted in creating an environment where children learn about cleanliness, practise it, and spread the message to the community by being the sanitation ambassadors and eventually creating a dirt-free society.

"Everyone must be his own scavenger"
